ABOUT METALZ

Metalz® originates from Al Burhan Steel Centre (ABSC), established in Mumbai (India) in 2011.

With over a decade of experience in steel trading, sourcing, supply, and logistics, the company has built strong relationships with suppliers, mills, traders, service centres, and end users across domestic and international markets.

As the business continues to grow across global and Gulf markets, METALZ reflects a progressive industrial presence focused on precision, transparency, reliability, and long-term partnerships.

OUR
CORE VALUES

Trust & Transparency

Strength & Reliability

Precision in Execution

Long Term Partnerships

Consistent Industrial Quality

OUR MISSION

To build strong global partnerships with leading steel mills and suppliers while delivering reliable sourcing, supply, and logistics solutions for industrial markets worldwide.

OUR VISION

To establish METALZ as a globally trusted steel trading brand recognized for quality, service, and long-term industrial relationships across India and Gulf markets.

FLAT STEEL PRODUCTS

METALZ offers a reliable range of **Cold Roll Coils (CRC)** and **Hot Roll Coils (HRC)** sourced from globally trusted mills.

Hot Roll Coils deliver excellent strength, weldability, and versatility for construction, fabrication, infrastructure, and heavy engineering applications, while Cold Roll Coils provide superior surface finish, dimensional accuracy, and formability for precision manufacturing, automotive, appliances, and industrial components.

Together, our Flat Steel portfolio combines performance, consistency, and dependable supply to meet the evolving demands of modern industries.

COATED STEEL PRODUCTS

METALZ offers a comprehensive range of **Hot Dip Galvanized (HDG)**, **Electro Galvanized (EG)**, **Galvanneal (GA)**, and **Color Coated Coils (PPGI/PPGL)** sourced from leading global manufacturers.

These products are widely used across construction, roofing, cladding, appliances, automotive components, HVAC systems, and industrial fabrication.

Combining protective coatings with excellent surface quality and formability, our Coated Steel range delivers superior aesthetics, extended service life, and reliable performance in demanding environments.

TINMILL PRODUCTS

METALZ offers a specialized range of **Electrolytic Tinplate Coils (ETP)**, **Tin Free Coils & Sheets (TFS)**, and **Tinmill Blackplate Coils (TMBP)** sourced from trusted global producers.

These products are widely used in metal packaging, food and beverage containers, aerosol cans, closures, battery components, and various industrial applications where surface quality, formability, and consistency are critical.

Our Tinmill product range supports the evolving requirements of packaging and manufacturing industries across domestic and international markets.

METAL SCRAP SOLUTIONS

METALZ supplies quality **Aluminium Extrusion Scrap** and **Motor Scrap** to support recycling, metal recovery, and manufacturing industries.

Sourced through reliable channels, these materials provide a cost-effective and sustainable raw material solution for processors, foundries, smelters, and industrial users.

Our Metal Scrap portfolio helps customers optimize production efficiency while contributing to resource conservation and circular economy practices. METALZ ensures reliable access to industrial scrap materials backed by trusted trading expertise and global market reach.
